- Canva

About Me

I have a strong desire to do an internship in the field of finance and insurance because understanding various aspects of this industry is crucial. Risk is a common factor that our society always encounters. Therefore, I want to gain a thorough understanding of it. I intend to apply the knowledge and skills I have acquired from university in this internship. Additionally, I am prepared to continue learning and further advance my knowledge to a higher level.

Project Experience

- **Stadium Reservation**
MATHEMATICS PACKAGES Jan 2022 - May 2022
A sports field booking program that allows users to choose the type of sports field they want to book. It then filters personal information, as well as the desired date and time for the booking. The program will display the booking details along with the service fee to be paid for that reservation. The program was developed by the creator using MATLAB.
- **Suitable Insurance**
OPTIMIZATION METHODS Aug 2022 - Dec 2022
Comparing the policies of three limited companies to determine which policy should be chosen to minimize insurance premiums. The Solver function in Excel was used to find the optimal solution.
- **Cash Flows Analysis**
ENGINEERING ECONOMY Jan 2023 - May 2023
The cash flows of a certain company are used to calculate the Net Present Value (NPV), Internal Rate of Return (IRR), and Effective Interest Rate(EIR) using functions in Excel.
